## 2. Safety

### 2.1 Intended use

The OTNI 90 Toolbox is intended to be used as tool supply for installing, adjusting and replacing OTN Innovations and OTN Implants products. Some of the products included in the OTNI 90 Toolbox have individual intended use as is noted in each individual included instructions for use.

### 2.2 General safety instructions

- The devices must only be used in accordance with its intended purpose.
- Some of the devices have individual safety regulations as is noted in each individual instructions for use.
- The devices must only be used by qualified personnel.

## 3. EU directives and disposal

This product complies with all necessary standards for the free movement of goods within the EU.

This product may not be disposed of with domestic waste in all jurisdictions. Follow the regulations for disposing in the country where the product is used. Please observe the information provided by the responsible authorities in the country of use regarding return, collection and disposal procedures.

## **4. Legal Information**

All legal terms and conditions are subject to the respective national laws of the country of use and may vary accordingly.

### **4.1 Warranty**

The warranty on the OTNI 90 Toolbox is 24 months. This warranty covers malfunctions in the product's functionality resulting from errors in material, production, and construction, provided that the OTNI 90 Toolbox is used as intended and under normal conditions. Normal wear and tear are excluded from the warranty. Wear and tear caused by malfunctions in the operation of the products due to material defects, production, and construction also falls under the warranty, to be determined at the discretion of OTN Innovations BV.
